

Overall Academic Result – Session 2025–26

Vivekananda World School achieved remarkable academic success during the academic session 2025–26, reflecting its unwavering commitment to excellence in education and adherence to the academic and assessment standards prescribed by the Central Board of Secondary Education (CBSE). The school continued to foster an environment that encourages intellectual growth, critical thinking, and the holistic development of every learner.

In the CBSE Board Examinations for Classes X and XII, the school once again attained an outstanding 100% pass result. Students demonstrated exceptional academic competence, with many securing distinctions and impressive scores across various subjects. Their achievements are a reflection of dedicated efforts by students, teachers, and parents, supported by a well-structured academic programme.

For Classes I to IX and Class XI, student evaluation was carried out through a comprehensive assessment system comprising periodic assessments, subject enrichment activities, practical work, project-based learning, and annual examinations in accordance with CBSE norms. The academic performance across these classes remained highly encouraging, with a large number of students attaining excellent grades and showing consistent progress throughout the year. Special academic support, remedial instruction, and enrichment initiatives further enhanced learning outcomes and individual growth.

Beyond classroom academics, students actively participated in national and international Olympiads, talent examinations, and other competitive platforms, where they earned commendable ranks, certificates, and awards. These accomplishments highlight the school's focus on nurturing analytical thinking, innovation, creativity, and problem-solving abilities among its learners.

Throughout the session, the school maintained a transparent and systematic evaluation process, conducted regular academic monitoring, and strengthened the partnership between parents and teachers through periodic Parent-Teacher Meetings (PTMs). Equal emphasis was placed on character building, discipline, life skills, leadership qualities, and the emotional well-being of students, ensuring their overall development.

The academic achievements of Session 2025–26 stand as a testament to Vivekananda World School's pursuit of educational excellence and its commitment to delivering quality education in full compliance with CBSE Affiliation Bye-Laws. The results reaffirm the school's vision of preparing responsible, confident, and future-ready individuals equipped to excel in an ever-evolving world.
